

Our vision is to provide an

Inspiring Educational Experience

for all students which is beyond their expectations and therefore forms
the foundation of a happy and fulfilled life.

CCTV System Policy

Introduction

The purpose of this policy is to regulate the management, operation and use of the closed-circuit television (CCTV) system at WMAT schools. The Policy follows the Information Commissioner's CCTV Code of Practice.

1. Objectives of the CCTV system

- to ensure the personal safety of students, staff and visitors;
- to reduce the fear of crime;
- to protect the school buildings and their assets;
- to support the police in a bid to deter and detect crime;
- to assist in identifying, apprehending and potentially prosecuting offenders;
- to protect members of the public and private property; and
- to assist in managing the schools.

2. Statement of intent

The CCTV is part of our registration with the Information Commissioner's Office (ICO) under the terms of the Data Protection Act 2018.

The schools will treat the system and all information, documents and recordings obtained and used as personal data under the General Data Protection Regulation (GDPR) and the Data Protection Act 2018.

Cameras may be used to monitor activities within the schools and the grounds to identify adverse activity actually occurring, anticipated or perceived, and for the purpose of securing the safety and well-being of the school's students, staff and visitors.

Images from private homes and gardens are kept out of range of the cameras and cannot be seen by the operator.

Materials or knowledge secured as a result of CCTV use will not be used for any commercial or media purpose. Information transferred to CD/DVD (or other appropriate media) will only be used for the investigation of a specific crime or incident.

The system has been designed to ensure maximum effectiveness and efficiency, but it is not possible to guarantee that the system will cover or record every single incident taking place in the areas of coverage.

Warning signs, as required by the Code of Practice of the Information Commissioner, have been displayed.

3. Operation of the system

The overall management of the CCTV system will be overseen by members of the schools Leadership Teams with responsibility for the school premises. They are responsible for ensuring that their CCTV system is operated according to this policy and that regular audits are carried out to ensure that procedures are complied with.

The DPO is responsible for this policy and for conducting the regular, and at least annual, audits of the CCTV systems.

The day-to-day management, administration, maintenance, security and support of the system will be the responsibility of the Chief Operating Officer/IT Managers or other senior person delegated with the responsibility on each of the school sites.

The CCTV system may operate up to 24 hours each day, every day of the year, recording all activity in the areas covered. It is the responsible person's responsibility to ensure that the monitors are correctly sited, taking into account the images that are displayed.

Recordings will be held on system memory for a period of 28 days and then deleted. The DPO is responsible for deciding what images will be retained, if required. The Chief Operating Officer/IT Manager/other delegated person is responsible for maintaining the recordings, ensuring their security and deleting them within the specified time period on their own school site.

4. Storing and Viewing of CCTV Images

Recorded material is stored in a way that maintains the integrity of the information and keeps it secure. This is to ensure that the rights of individuals recorded by the CCTV are protected and that the information can be used as either evidence in court or for the management of the schools, as and when required.

If we are keeping information that may be used as evidence in court or for management of the schools, we will keep a record/audit trail of how the information is handled.

Recorded images will be viewed only in the IT Support office and/or the Leadership Team offices. The monitoring or viewing of images is restricted to the DPO, the Chief Operating Officer/IT Manager/other delegated person and members of the Leadership Team, subject to any Subject Access Requests or requests by law enforcement.

Where images are in an area of particular sensitivity such as a changing room, we will only view recorded images after an incident has occurred.

The only person authorised to make copies (electronic or paper) of images is the Chief Operating Officer/IT Manager/other delegated person in the individual school or other person specifically directed by the Principal/Headteacher or the DPO.

5. Requests to View or have Copies of images by external agencies or individuals

The DPO will review all requests for disclosure of CCTV images. Such requests can be made under the GDPR, the Data Protection Act 2018 or The Freedom of Information Act 2001. Such requests may come from the police, solicitors or individuals. All requests will be considered in line with our Subject Access Request Policy.

When disclosing surveillance images of individuals, the DPO will consider if obscuring of identifying features is necessary or not. This will depend on the nature and context of the footage that is being considered for disclosure.

6. Breaches of the code (including breaches of security)

The WMAT CEO, Principal/Headteacher of the school, or a senior leader acting on their behalf, will initially investigate any breach of the Code of Practice by school staff. Any serious breach of the Code of Practice will be subject to the terms of disciplinary procedures already in place.

A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed will be investigated by the DPO.

7. Assessment of the scheme and code of practice

The CEO, Principal/Headteacher, the DPO, or their representative, may carry out performance monitoring, including random operating checks.

8. Complaints

Any complaints about the schools' CCTV system should be addressed, in the first instance, to the School GDPR lead person, who will investigate all complaints with the CEO/Principal/Headteacher and/or the DPO in accordance with the Information Commissioner's Code of practice.

Approved: Autumn 2018

Review Date: Autumn 2022
